Drug tiers

It can be a challenge to determine your prescription drug costs. Our drug list includes four drug tiers. Generally, drugs on tier one will be the least expensive while drugs on tier four will cost more.

Specialty drug coverage

Medicare classifies specialty drugs as certain unique and high-cost medications that can be complex to dispense and may involve patient education. Our specialty drug coverage gives you access to these types of medications. Specialty drugs include injectable antibiotics, transplant drugs, certain chemotherapy drugs and other self-injectable or administered drugs.

Supplemental drug coverage

Group MedicareBlue Rx has coverage to help you pay for certain drugs that are not on our drug list and that Medicare Part D does not cover. Money spent on supplemental drugs does not count toward the amount you pay before catastrophic coverage starts.

Enrollment and eligibility

You can enroll in Group MedicareBlue Rx if you meet the following eligibility requirements:
